# QUOTES FROM PARTICIPANTS

This is the place where people meet and share. I have never thought that a simple debate club or an essay contest in our city could involve such amazing and interesting people. They are all different, but still have the same goal - to share their best experience and practices. As a volunteer, I had the chance to do my best in social media tasks and be part of a huge friendly team. More than that, I do consider America House Bălți a good platform for personal and professional development for all students who love American culture. And I realized that there are plenty of them.

Valeria Ceban, America House Balti volunteer

The best thing about America House Bălți is the fact that both school English teachers and their students have the opportunity to meet and learn. The amount of activities that this center provides to its visitors is big enough. We are sure that successful practices must continue to be thought inclusively and globally.

Thanks to the online or on-site meetings, the teachers get involved in professional development courses. The experience must continue as we all need development and improvement. Diverse cultural perspectives inspire creativity and drive innovation. That is why we are lucky to have such a fruitful collaboration between our organizations.

Natalia Cojuhari, Education, Youth and Sport Department, Bălți

America House is a place where you can express your opinion, you can be yourself, is the place where you are free. The events are always well-organized and the volunteers are always ready to help you and to answer all your questions. Here you can improve your English skills, develop your personality or you can just have fun. Thank you to America House Bălți for all of the memorable moments, and unbelievable experiences.
